

CPF[®]

Introduction

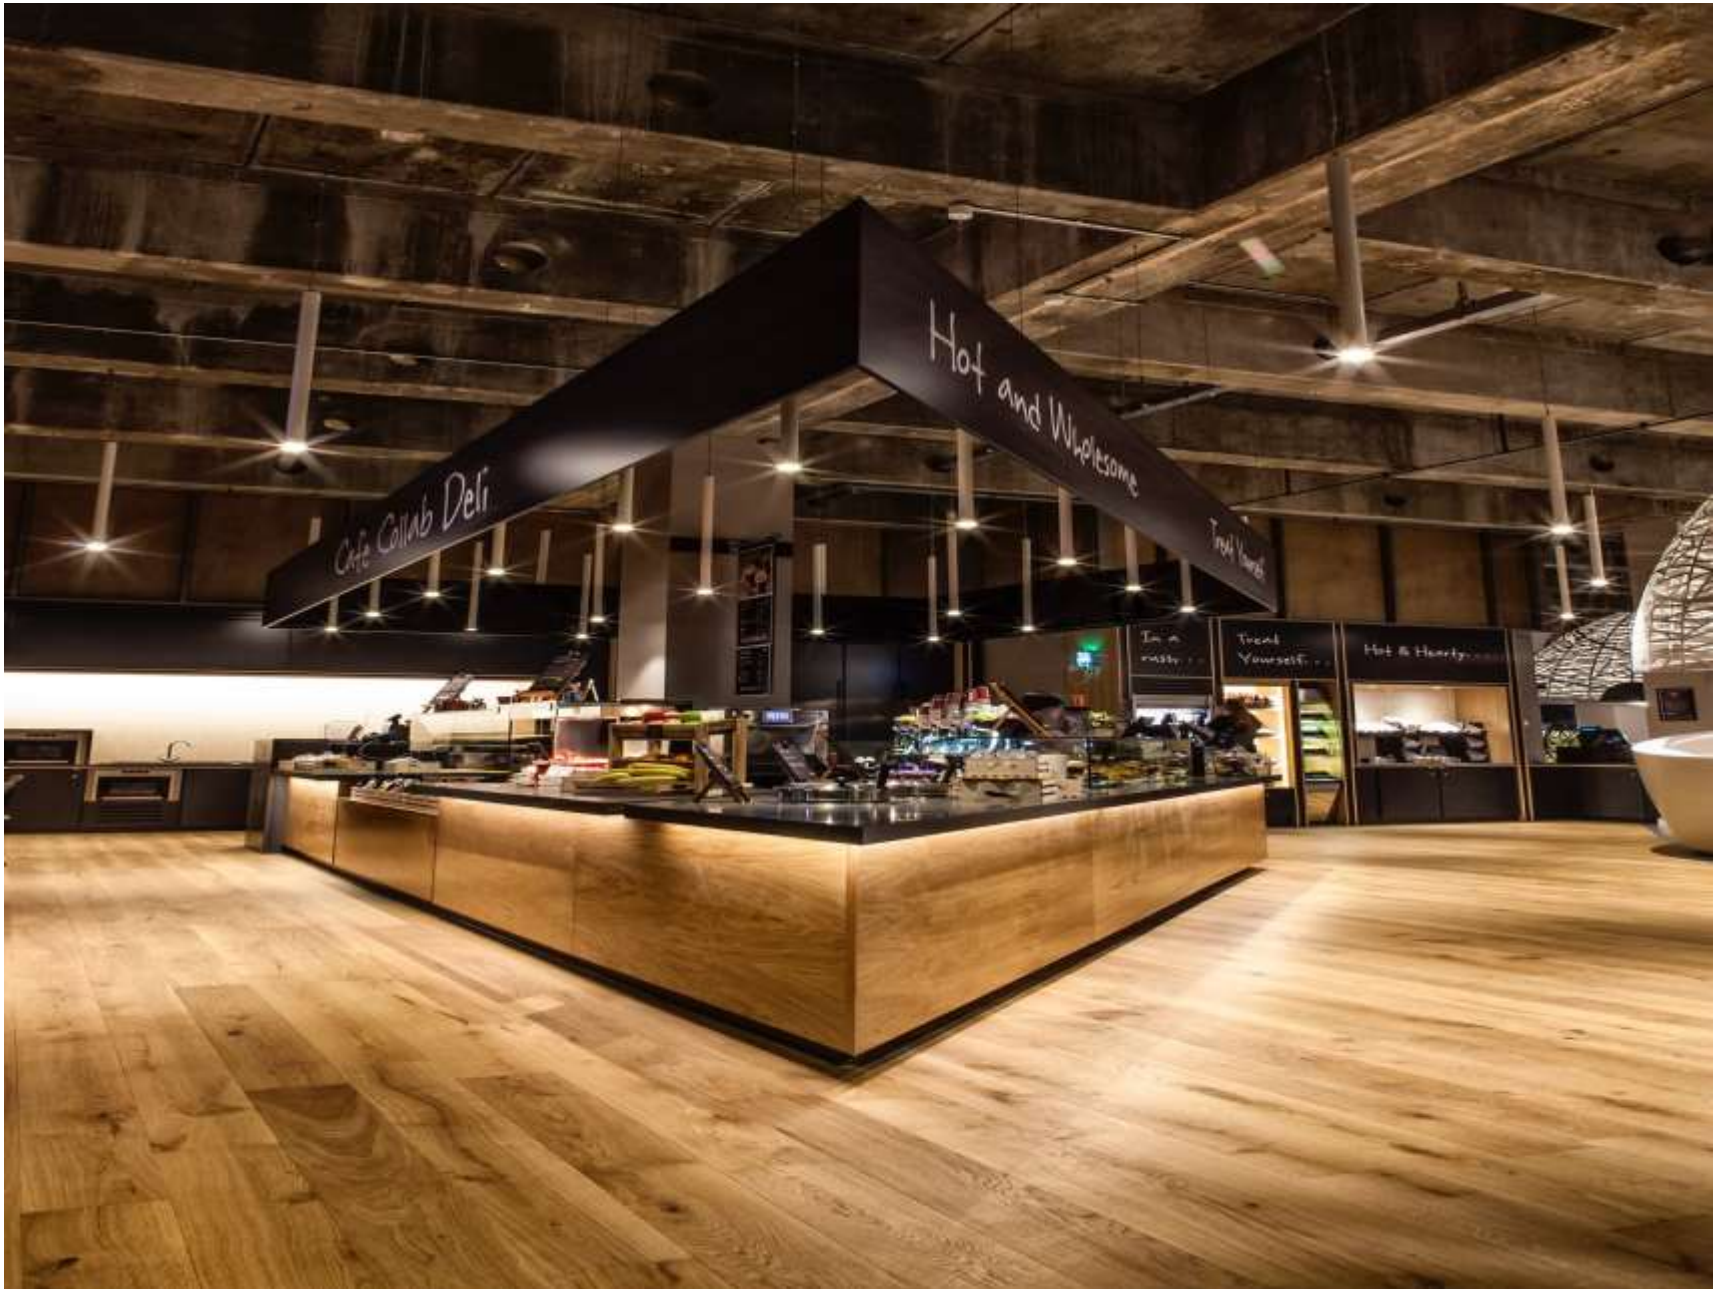

Working on Commercial, Retail and Industrial projects across a wide range of businesses in both the Public and Private sector. The Directors at CPF bring over 60 years of experience in the construction, fit-out and refurbishment industry. Along with other key staff we have developed very successful partnerships with our sub-contract companies.

All at CPF are committed to developing these partnerships further, the result a highly competitive, experienced and professional team at your disposal to work from initial concept through to final completion and site handover.

With Health and Safety being of paramount importance with all construction professionals, it is now vital that all aspects of the current CDM regulations are enforced. CPF has the knowledge and experience to deliver projects on time, within budget and most important of all, in a safe manner.

We aim to establish long-term working relationships with our Clients through an honest, open and non-confrontational management style built around trust and reliability.

We also understand that in todays fast moving marketplace, demands and timings can change suddenly, we are responsive and able to adapt to changes in requirements.

Commercial - Retail

Our strong focus and understanding of these sectors enable CPF to meet clients individual needs, whether working directly with end users or via surveyors, agents and developers we provide a first class service built on our experience.

We understand the commercial realities faced by our Clients and why the completion date on any project is critical to their business plan, particularly on Retail which normally involve expensive advertising campaigns.

Maximum space utilisation on expensive high street retail locations is of paramount importance. Our designers understand the exacting requirements of the retail environment which is why our Bespoke offers are tailored to suit not only your Branding, but also the exact building space plan.

We work with our Clients on their roll-out and fast track programmes to ensure minimal disruption and maximum efficiency.

You can be assured that CPF with it's tightly integrated teams of skilled operatives will deliver in-time and to budget, in even the most demanding of schemes, nationwide.

Furniture

All too often work environments are designed around the fabric of the building with little emphasis on the individual employees who will spend their working day there.

Well planned and ergonomically designed furniture meets with current workplace legislation but more importantly helps create a contented environment, hopefully leading to increased efficiency.

Manufacturing

CPF pride ourselves on our ability with manufacturing bespoke and original joinery items in-house. We employ craftsmen to create your high quality bespoke interiors, working with you from design to completion. Our bespoke joinery manufacturing facility works hand in hand with our project teams to help you and your clients achieve your objectives.

We manufacture and install a range of bespoke joinery items including, amongst others; Coffee bars, Café/Restaurant servery counters, recycle stations, condiment units, soup counters, reception desks and concierge desks, dental practice furniture, retail displays and cashier counters, laboratory work stations, ceiling rafts, shelving systems, feature walls, room dividers, booth seating and office storage.

From branded outlets for high street companies to small in-house coffee bars, large servery areas to vending housing we can undertake all manner of projects, all bespoke, all to your specifications.

We can also provide:

- Design service using AutoCAD and SketchUp – using industry leading software packages, CPF can help you visualise your projects. We can provide comprehensive layout drawings and rendered models.
- Project Management
- Ongoing Maintenance and Support

Statement pieces or functional reception desks, whatever your requirements, CPF can manufacture and install to the high standard you expect to create an impact in your space.

CPF are a Corian approved solid surface fabricator and can offer a variety of colour and styles to suit your requirements.

Industrial

CPF has developed a strong foundation in the industrial property sector, developing innovative and cost effective solutions for this specialist marketplace. Providing a comprehensive turnkey package of refurbishment, new build or dilapidation work within the industrial sector.

Internal and external works professionally undertaken including, amongst other works: foundations, re-surfacing, drainage, structural steelwork including mezzanine floors, roof and cladding renewal and repairs, M&E, offices, security stores and welfare facilities, Internal and external construction, storage and material handling solutions.

Delivering complete design, project management and completion within programme to best benefit Clients needs.

Mezzanine Floors

Whether for a Retail Sales Floor, Commercial Office, Industrial Storage or a combination of new facilities, a mezzanine floor provides a proven and above all cost effective method of increasing floor space.

By unlocking often dead or unused space installing a mezzanine floor is the ideal solution for companies needing to expand or consolidate it's operation, without the expense and disruption of relocating the business.

Our floors are designed and manufactured in the UK and meet with all current legislation. Each floor is tailored to the individual site layout and requirements, ensuring not only ease of installation, but more importantly ease and longevity of use.

Workplace Equipment

CPF offer a extensive selection of workplace equipment to suit a variety of needs. For quick and easy procurement we offer an online shop which offers a complimentary delivery service throughout mainland UK.

The workplace products we offer, amongst others are:-

- Lockers
- Workbenches
- Workstations
- Cupboards
- Cycle Parking
- Walkways
- Smoking Shelters
- Truck & Trolleys
- Shelving
- Bespoke Joinery Items
- Booth Seating

CPF work closely with our equipment manufactures to ensure we are able to provide quality products, competitive prices and endeavour to keep lead in times as short as possible to suit tight deadlines.

If you require specific products that are not detailed in our catalogue, we are able to offer bespoke products which can be tailor made to satisfy your requirements. We can even offer design services to ensure that your workplace and equipment can be installed to offer the maximum space management and optimized layout.

Using our expert labour force, we are able to provide an installation service to guarantee your workplace equipment is fitted and installed to a superior level. All our labour is fully trained and treat health and safety as paramount.

For a full list of products please visit our website www.storageandhandling.co.uk to view our online shop, or contact our head office to speak with one of our dedicated team who will be able to provide further information on any of our products and services.
